

Your creative production partner

Everyday product advertising, brand films and adventurous social ideas. We can develop a direction together or bring your existing ideas to life.

A FLEXIBLE WAY TO WORK TOGETHER

We can work directly with your team or alongside your branding and marketing agency. From a quick still-image request to a complete campaign, we shape the scope around what you need.

AN ONGOING MONTHLY OPTION

\$10,000 / month

Eight finished assets around one or two approved creative directions.

- | | | |
|-----------|----------------------------|--|
| 01 | Campaign video | One principal brand or product film. |
| 04 | Short social videos | Companion stories, cutdowns or variations. |
| 03 | Still images | Campaign imagery for digital channels. |

Includes concept development, scripting, creative direction, production, editing, sound, standard AI generation costs and two consolidated revision rounds. We agree asset mix, lengths and delivery formats before each month.

Start with one paid month, then continue month to month with no annual commitment. Major live shoots, outside talent, specialist licensing and media spend are scoped separately.

PROJECTS, HOURLY OR DAY RATES

The monthly model is one option. We can quote a single project or work on an hourly or day-rate basis, at the volume you need. A small paid test project is an easy way to see how we work together.
